

A projectile struck the premises of the Bushehr Nuclear Power Plant

Posted on: 24 March 2026

Event Date: **24 March 2026**

Event Type: **Power Reactor**

Event Location: **Iran, Islamic Republic of, BUSHEHR-1**

INES Rating: **Not provided**

On 24 March 2026, Iran Nuclear Regulatory Authority was informed by the Bushehr Nuclear Power Plant that at approximately 21:08 Iran Standard Time (IRST), a projectile struck the premises of the power plant due to the aerial and missile attacks by the Zionist regime and the United States of America. As of this moment, no damage to the facility or injuries to individuals have been reported and the condition of plant is normal. It should be emphasized that such thoughtless actions contravene CHARTER OF THE UNITED NATIONS, The IAEA's Statute and also the principles of international law. No military action should put at risk safety of NPPs and their operating staff, who must be able to carry out their vital work in safe conditions.

INES Rating: Not provided

Impact on people and the environment

Release beyond authorized limits?	No
Overexposure of a member of the public?	No
Overexposure of a worker?	No

Impact on the radiological barriers and controls at facilities

Contamination spread within the facility?	No
Damage to radiological barriers (incl. fuel damage) within the facility?	No

Degradation of Defence In-Depth

No

Other information

Person injured physically or casualty?	No
Is there a continuing problem?	No
