Why You Should Stop Using Nulled Themes

Nulled WordPress themes are **EXTREMELY DANGEROUS** for the security of your website

No Support From The Developer

No Automatic Updates

Affects Your SEO

After purchasing the theme:

1. Download the "installable theme" from ThemeForest
2. Access your server via FTP and browse to wp-content/themes/
3. Delete and override the "jannah" folder files with the new ones downloaded in step 1.

Or just open a support ticket and our team will be more than happy to help
